------------	-------------------------------------	----------------	----------------------------

This table illustrates events that we are aware of between now and the end of June. It was not possible to hold an online Events Meeting before this, but it is hoped we can try to hold another one in due course.

If you are made aware of any events that we can share information about, please pass these on for circulation.

We are in the process of refurbishing the Community Notice Board in the tunnel of the Market Hall. The jammed lock has now been released, so this now needs stripping out, and new cork tiles put into it so that it can be utilised by ourselves and the community. This can be worked on during the building's operational hours, so a working group is sought to assist the Town Clerk to take this on. Once it has been refurbished, the Theatre Technical Manager has offered to instal lighting into it to make it more of a feature.

Writing Festival Feedback:

A note of thanks has been received from Lucie Parkin about this year's Writing Festival 21st and 22nd April 2023:

“Just wanted to let you know the Writing Fest seemed to go super well!

A wonderful vibe and loads of lovely feedback already.

One of our contributors made this video, you may have seen me share it (this is footage from Saturday only).

We also have films of the individual talks and performances which will be ready to share soon.

Also attaching a pic of the Youth Writing Competition (I'll be sending this out with a press release over the next few days).

Please share and pass on my thanks to the Mayor and Councillors.”
