## Section 2 – Tell Us About Your Group

a. Briefly tells us about the activities that your organisation/group undertakes

*Greener Abergavenny* is a collective of membership organisations consisting of people in and around the town of Abergavenny promoting collectively and individually a move towards a greener future.

Evidence that we are living through a climate and ecological emergency is compelling. The enormity of the problem and the scale of the effort required to address it can be overwhelming, leading to feelings of helplessness. Yet individually and collectively each of us have the power to face these challenges creatively and with some urgency. This is *Greener Abergavenny's* purpose.

The aims of *Greener Abergavenny* include:

- a) To raise awareness across our community of the issues associated with the challenges of the climate emergency, resource depletion and loss of biodiversity necessitating the development of a low carbon, sustainable and resilient future.
- b) To promote, encourage and support the development of education and understanding concerning areas of our lives affected by the challenges outlined above.
- c) To endeavour to provide through the actions of the membership organisations, encouragement and practical support necessary to make the rapid transition to a low carbon, sustainable future.
- d) To encourage the development of resilient communities and to work with other Transition Towns and similarly community-led initiatives.
- e) To work with statutory, local authorities, voluntary, and business organisations, where appropriate in pursuit of its aims.
- f) To set up sub-groups within *Greener Abergavenny* that focus on particular issues or campaigns in line with our overall purpose and aims.

There are a variety of ways in which these objectives might be achieved. The first is to organise a Fair in Abergavenny, to provide expertise, support discussion, educate, inform, assist and enrol all parts of the community in making positive changes.

## Section 3. Tell Us About The Community Project/Activity You Want To Undertake

a. Which objective does this project mainly contribute towards (**please tick one**):

Giving Children and Young People the best possible start in life

Support for community wellbeing inc. volunteering and active citizenship

Supporting an economically thriving community

Protecting and enhancing our natural environment

b. Please give more detail on how your project will meet the objective you selected above.

The initial activity to be undertaken by the newly formed Greener Abergavenny collective is the first Greener Abergavenny Fair on October 1<sup>st</sup> 2023.

This will bring together representatives from local organisations, groups, businesses and experts to share knowledge and thoughts on how we can individually and collectively move to a move sustainable, greener, lower carbon way of living in the face of climate change and loss of biodiversity..

The scope includes Energy efficiency, Active and Low Carbon transport, local and sustainable food and farming, supporting nature and biodiversity, making green purchasing decisions and management of waste.

We hope that this event will give significant support to a number of community organisations such as the various "Friends", charities, groups such as Benthylg and Repair Café and many others. By making them more visible, they will get more customers and support. Businesses may adapt to a greener more demanding clientele, local Food providers may gain customers, homeowners might find grants, ideas and support in making changes to their property and energy supply.

Children and Families can come to the event to have fun and learn about opportunities to be involved in a wide range of schemes from creating Green Corridors to tree planting or cycling.

"Friends" groups will be offering walks to the green spaces around the town to encourage use and appreciation of the benefits for everyone's wellbeing by using these spaces.

c. Total Project Cost

£6,200

d. How much are you applying for from Abergavenny Town Council?

£1000

e. Have you raised the balance of funds?

Yes, we have a commitment so far of £2,900 from 3 different sources, with funds also generated from stalls at the planned event. It is anticipated that other funds will constitute >80% of the Project Costs.

(25% of the total project costs should come from other sources)
