- NOTES**
- Please only use this drawing for the purpose stated in the title.
 - Drawing to be read in conjunction with all other scheme drawings including South East Wales Framework standard details.
 - The Site Compound Areas shall be adjusted accordingly by the Contractor to suit the requirements of the Works
 - For traffic sensitive times refer to Specification Appendix 1/13.
 - There are various underground and overhead services located in the vicinity of the works. Details of these will be shown on the original utilities returns. Prior to undertaking any excavation operations the Contractor should familiarise themselves with any conditions and special requirements set down by utility companies.
